History and Mission

CROLLL, founded in 1998, is a full service CRO offering design, conduct, monitoring and analysis of clinical studies in cooperation with pharmaceutical and medical devices industry, universities and physicians.

Our team of highly qualified employees with long-term experience in clinical research is focussed on the rapid and straightforward accomplishment of complete or partial solutions for clinical studies and other research projects.

Highlights

25 successful years are based on our philosophy:
individual – fast – flexible

We focus on a very *personalized service* tailored to the individual needs for the efficient conduct of all projects. Our excellent *quality of work* is based on the personal commitment and motivation of our employees in order to meet the ambitious timelines of our clients. Up to now more than 1,000 projects have been completed successfully. The majority of our activities is placed in Germany with experience in the field of coordinating European business.

Individual projects and challenges are welcome especially.
