## History and Mission

**Forschungsdock CRO's** aim is to stand by our client's side as a strong and dependable partner with long-standing expertise in clinical operations. We lay emphasis on pragmatic and custom-tailored approaches as well as attentive communication.

Quality management is not only one of our important services, but also of the highest priority in our daily work: We live GCP, without losing ourselves in incomprehensible formalities. Regulatory requirements must be understood before they are implemented, and we have this claim every day anew.

## Highlights

### Experience and Efficiency

- Being a small company with highly experienced personnel, we have short turnaround times, can quickly adjust to the client's needs, and find individual solutions.

### Courage and Flexibility

- Our clients appreciate our capacity for handling their study projects swiftly, enthusiastically, and flexibly.

### Forschungsdock Akademie:

- Our academy offers innovative, interactive, and accredited eLearnings on GCP for Investigators.

## Services
