conreso
Finest Quality in Research

HISTORY AND MISSION

Conreso – founded in 1990 – has set a benchmark with its unequalled quality. Both national and international sponsors benefit from the exceptional efficiency, pleasantly fast pace and incomparable willingness to provide service. With its highly qualified team Conreso combines the professional scientific expertise of an academic institute with the efficiency of a CRO. Its repeat business quote was consistently 90 % over the past ten years.

HIGHLIGHTS

Paediatric expertise:

Conreso has recruited more than 30.000 children aged from 2 weeks to 17 years for clinical studies.

Oncologic expertise:

For its oncologic services Conreso was granted the „Best Clinical Team Award Europe“ presented by one of the top pharmaceutical companies.

Late phase/epidemiologic expertise:

Conreso manages late phase and long-term studies with sustained quality and care. A full service epidemiologic study including over 5.000 women commenced 2009 and will be continued for a decade.

Vaccines expertise:

Five vaccine studies were FDA inspected with credit.

SERVICES

Full clinical trial service for vaccines, pharmaceuticals and medical devices

- ▷ Study planning/consulting
