**HISTORY AND MISSION**

MLM Medical Labs was established in 1993 and is now one of Germany's most renowned private central and specialty laboratories for clinical trials phase I-IV. In 2011 we opened our own stand-alone facility with all laboratory capabilities necessary for clinical trials. We aim to provide our services with the highest personal diligence and passion, based on sound scientific knowledge and experience and in compliance with Good Clinical Laboratory Practice.

**SERVICES**

**Central laboratory services for clinical studies (Phase-IV)**

- ▷ Allocation of proactive study managers to individual studies
- ▷ Provision of study-specific visit kits with pre-labeled and barcoded-tubes, extended laboratory manuals with tabulated reference ranges, certificates, requisition forms, shipping documents and supplies
- ▷ Same-day reporting of all analytical results for safety analyses
- ▷ Study plans and analytical reports for PD/PK studies
- ▷ Customised data transfer, web-access via mlm online®.
- ▷ Archiving of study-related documents for 15 years in MLM's GLP/GCLP compliant archive

**Analytical services**

- ▷ Standard safety parameters incl. clinical chemistry, haematology, drug screening and urinalysis offered as flat fees via customised panels
- ▷ Assessment of biomarkers and special analytes using ELISA, ECLIA, CLIA, RIA and HPLC in our own facility
- ▷ Development and validation of new assays according EMA and FDA guidelines
- ▷ Proficiency testing with CAP, INSTAND, RfB, NGSP
- ▷ Multiplex Assays

**Scientific Support**

- ▷ Scientific support with respect to the selection of analytical parameters and methods
- ▷ Development of tailored analytical solutions for special parameters
- ▷ Presentations at investigator meetings and scientific conferences

**Sample logistics and storage**

- ▷ Organising national/international sample shipment logistics using dedicated logistic experts
- ▷ Own driver service for 24/7 pick-up of samples in Europe at ambient and frozen conditions
- ▷ Long- and short-term storage of samples in emergency power secured -80°C/-30°C freezers incl. continuous temperature monitoring

**HIGHLIGHTS**

Since 1993 MLM is preferred provider for several CROs and pharma companies. Since 2012 MLM is providing its services for national / international clinical trials on 365 day a year.

MLM has been successfully recertified as GLP laboratory in 2012 and is an ISO 15189-accredited, NGSP-certified and CLIA-registered full service central and specialty lab.

In 2014 MLM launched its new web access. With the new tool mlm online® MLM's clients could monitor laboratory data and track the use of sampling kits from anywhere in the world.

In 2014 MLM established a new platform for multiplex analysis, which allows to measure up to 40 biomarkers simultaneously.
