HISTORY AND MISSION

Nuvisan Pharma Services is a fully integrated Contract Research Organisation and pharmaceutical services provider with a 30-year track record, serving clients' needs in early and late clinical development. Headquartered in Neu-Ulm, Germany, Nuvisan has more than 350 employees and features two strategic business units:

- LABORATORY SERVICES
- CLINICAL DEVELOPMENT

HIGHLIGHTS

Full drug development support services for Early and Late Phase Clinical Trials.

Nuvisan Early Clinical Development has strengthened its position as an outstanding drug developer in the early phase. It has profound experience in e.g. First-in-Man SAD/MAD studies and Integrated Packages (NCE's and NBE's), PoC, DDI, food effect studies, etc.

Nuvisan Lab Services is one of the leading laboratories to provide bioanalytical, pharmaceutical and Clinical Trial Supply services.
