HISTORY AND MISSION

PHARMALOG your professional partner for clinical studies. Our team of academics undertakes phase I and phase II-IV studies for you. We work for the pharmaceutical and biotechnology industries and for producers of food supplements, cosmetics and medical devices. We are also happy to implement post-marketing and pharmacoeconomic studies for you. We undertake both complete research projects and special tailored services in all major indications. PHARMALOG: Transparent – Accurate – Flexible - Friendly

HIGHLIGHTS

Our customers/clients

Appreciate our flexible and accurate services and our customised designs as well as our friendly staff and our transparency in every phase of the project.

Our company

- ▷ is experienced in managing studies in all major indications – as well as in paediatrics and phyto-therapeutics
- ▷ offers well-trained and experienced employees who are able to work nationally and multinational within Western Europe and CEE
- ▷ provides a large investigator pool within Germany, Eastern and Western Europe

PHARMALOG

Transparent - Accurate - Flexible - Friendly

SERVICES

From audit to report

As a full-service CRO we are in a position to provide you with effective and efficient support from the very start. In the process we take a suitably flexible approach to each individual study to meet the specific requirements of each case. Of course we also offer tailored services – if, for example, you only require assistance for certain project phases or require consulting services.
