## HISTORY AND MISSION

Would you choose a CRO that maximizes your success and reduces your stress? Our unique creativity. Dedicated to YOUR success. That is our inspiration for new concepts and innovative solutions for challenges during the course of clinical research. We qualify, we cheer and we coach our stable staff and strongly believe in the power of value based and goal orientated team work. *proinnovera* is your Clinical Research Organization. We support global health.

## HIGHLIGHTS

*proinnovera* has extensive experience in managing and monitoring Dermatology, Oncology and Rheumatology/ Pain studies. These key therapeutic areas currently account for 156 of 257 projects.

In 2010 *proinnovera* founded the EASY – Group – an international team of CROs. The EASY-Group is a full-service provider for international trials and connects 450 clinical research professionals in the 21 EASY Offices worldwide.

*proinnovera* offers full-service as well as partial services. We provide our services in a flexible manner to meet your needs and deliver solutions for a successful conduct of your clinical trial.

## SERVICES

Would you sleep better at night knowing that your CRO partner takes true ownership of your project?

One has to keep track of the regulatory requirements, the recruitment requirements, the costs, the timelines and to ensure the smooth cooperation of all parties involved. Conducting a clinical trial demands a great deal of expertise from all participants. The *proinnovera* CRO is the right answer to your needs.

**We deliver just the right services for your maximal success:**
