HISTORY AND MISSION

synlab pharma institute is the dedicated division of the synlab group servicing the biotechnology, pharmaceutical and cosmetic industries as well as developers of medical devices, novel foods and crop protecting agents.

synlab pharma institute includes a series of competence centres such as the formerly INTERLAB GmbH in Munich, synlab clinical trial SCT in Berlin, BURECO and SBA in Switzerland and other lab locations in UK, Germany, France and Austria.

HIGHLIGHTS

Our portfolio at synlab pharma institute includes central clinical laboratory services, bio-analytical services, biomarker testing, personalised medicine concepts, sample logistics, long-term sample storage services, stability testing, production monitoring and microbiological batch tests.

The analytical portfolio includes hygiene testing as well as testing of environmental matrices such as food, water, air, waste and bio-waste, soil and construction materials.

Since 1994, global reach is available via an established and reliable network of affiliate laboratories in North and South America, South Africa, Australia, India and Asia.

SERVICES

Central lab services for all types of studies incl. paediatric trials (PIP)

- ▷ small local or regional studies requiring routine and specialised test panels
- ▷ multi-national studies involving complex shipping logistics
- ▷ multi-continental clinical trials involving emerging countries incl. China
- ▷ logistical projects without lab testing: shipping, visit kits, extended storage
- ▷ material supply: visit specific kits, centrifuges, freezers and more

Analytical services for pre-clinical and bio-pharmaceutical projects

- ▷ assay development / stability testing / drug release / PK/PD
- ▷ GMP and GLP lab work for research and manufacturing purposes
- ▷ next generation sequencing / pharmacogenomics / immunogenicity
- ▷ biomarkers: development and identification

Analytical services for medicinal products, novel food and cosmetics

- ▷ bio-analytical techniques
- ▷ physico-chemical methods following GMP
- ▷ lowest-detection assays: e.g. toxicology
- ▷ hygiene and microbiology monitoring

Global quality standards and one single IT platform

- ▷ DIN/EN ISO/IEC 17025/15189, GMP, GLP, GCLP or GCP
- ▷ global SOPs for study setup, study support and data communication
- ▷ all network labs are periodically audited: certificates available to sponsors
- ▷ periodic cross-validation studies to ensure comparability of lab data worldwide
- ▷ secure online-access: cumulative reports, statistics, abnormal results, metrics

synlab pharma institute is the »Pharma« division of the synlab group; the other three being dedicated to human, veterinary and environmental testing. Headquartered in Augsburg, Germany, the synlab group is the leading provider of lab services in Europe with affiliates outside Europe in Africa, South/Central America, and Near/Middle East.
