HISTORY AND MISSION

INC Research/InVentiv Health is the only fully integrated biopharmaceutical solutions organization. Our Company, including a Contract Research Organization (CRO) and Contract Commercial Organization (CCO), is purpose-built to address new market realities where clinical and commercial share expertise. With more than 22,000 employees and presence in more than 110 countries, our global scale and deep therapeutic alignment enables us to help customers successfully.

Catalyst Site Network

Our Catalyst Site Network is a select group of high-performing sites from across the globe, which are strategically aligned to both our business and that of our customers.

HIGHLIGHTS

The Trusted Process®.

The power of our Trusted Process®, a proven, metrics-driven clinical trial outsourcing methodology enables us to provide reduced variability, yet maintain the flexibility to customize your clinical trial to fit your needs.

- ▷ Startups 35% faster than industry benchmark*
- ▷ Enrollment 4 weeks ahead of schedule
- ▷ Database locks 39% faster than industry benchmark*

* Based on reported benchmarks from CMR International Institute for Regulatory Services
