HISTORY AND MISSION

TFS International is the leading global mid-size clinical CRO focused on small and mid-size life science customers. TFS employs +850 professionals throughout 21 countries and delivers clinical research services in +40 countries. Our partnering approach with customers is based on our four business principles – commitment, flexibility, value creation and global reach. Our core therapeutic specialties are Dermatology, Oncology, Ophthalmology, Immunology, CNS, Cardiology and Endocrinology.

HIGHLIGHTS

Services: TFS partners its customers in the life science sector in 3 main areas:

- ▷ Global Clinical Development, represented by TFS Develop
- ▷ Flexible resourcing, represented by TFS People and
- ▷ Real World Evidence, represented by TFS Evidence (to be launched in 2017)

Therapeutic Specialization: Through the acquisition of the German dermatology specialist SCIderm, TFS is a global leader in dermatology with the ability to reach 1200 investigational sites in Europe and North America.
