HISTORY AND MISSION

proDERM is a renowned specialized international CRO with a strong focus on studies relating to skin, hair and mucous membranes. With the knowledge and experience of over 100 permanent staff members, proDERM has established an excellent reputation as a reliable high-quality provider of clinical trial services on the basis of outstanding clinical and technical set-up and expertise. The Institute is ISO 9001:2015 certified and located in Schenefeld/Hamburg.

HIGHLIGHTS

Nature: We are a full-service CRO with a strong focus on clinical trials in dermatology and ophthalmology, especially in early phase.

Consulting: We are committed to support our clients in their goal to gain market approval (and beyond) and to define the optimal way from the very beginning.

Network: We offer a network of partners which increases our flexibility and ability to adapt our services to customer needs.

Recruitment: It is one of our greatest strengths to satisfy the most difficult recruitment conditions. We have proven this many times with demanding panels in atopic dermatitis, rosacea, psoriasis and other even rarer indications.

Experience: We have conducted +200 clinical studies in an environment fully compliant with GCP regulations.

SERVICES
