 Audits passed in 2012 and 2015

HISTORY AND MISSION

emovis is proud to claim success in clinical investigation for the mutual benefit of both patients and the industry. Our dedicated professional staff of 4 Investigators and 8 Study Nurses is taking care of all necessary regulatory provisions, thus smoothing processes between patients, CROs and sponsors. If you are looking for an eligible audience of patients, recruited from Germany's biggest city Berlin, customized service – and reliable results, contact us for more information.

Reception – Study Site

HIGHLIGHTS

In 2016 we celebrated our 15th anniversary with more than 200 clinical trials implemented, over 20 passed sponsor audits, more than 5,000 recruited patients from our own advertising efforts and some 13,000 interested patients in our database.

In 2013, we successfully passed an FDA-Inspection without issuing a Form 483.

Since 2012, we enclose local home care services in line with the respective protocols for study participants all over German-speaking Europe, the UK and France.

In 2009 we initiated our sleep laboratory inpatient facilities, dedicated exclusively to clinical research.

Since 2005, we regularly amend our SOPs.

In 2001 *emovis* was founded by a group of clinical investigators.

Working space for CRAs
