

COMPANY PROFILE

Dr. Anton Klingler
Founder | CEO

History and Mission

Since 2005, **Assign DMB** focuses on managing clinical studies efficiently and tailored to the individual needs of our clients, working in various indications, from infectious diseases to oncology.

After an initial focus on data management, biostatistics and safety management, our portfolio has soon been enhanced by the addition of medical monitoring, project management and medical writing, to cover the growing needs of our clients.

Highlights

Commitment

We are working with maximum dedication, to push studies forward efficiently and quickly.

Expertise

Assign has more than 20 years of experience for drugs, medical devices and epidemiological studies through all study phases.

Flexibility

We are used to work in all kinds of settings, from different sponsor types, involved CROs, scope of work, geography and study designs.
