History and Mission

Founded in 1994 with the ethos of finding a better way to support sites, patients and the conduct of clinical research, **Pharm-Olam** is helping biopharma create a healthier world through the research of life-changing treatment. As an award-winning global contract research organization, we have been on this mission for 27 years. In Pharm-Olam, you will find a partner dedicated to your shared vision of helping patients and changing their lives for the better through life-changing treatment.

Highlights

Pharm-Olam is an award-winning global CRO, dedicated to going the distance to bring new therapies and vaccines to patients in need. We deliver right-sized trial services to pharmaceutical, biotechnology, government, and public health organizations around the world. Pharm-Olam offers an optimal fit for smaller biopharma sponsors since our size permits us to be agile and adapt rapidly. We consider ourselves as the 'go-to-CRO' for small to mid-sized Biopharma companies. Over our 27-year history, Pharm-Olam has grown organically and established a reputation for taking on and successfully executing the most challenging local and global clinical trials. We cover over 60 countries with our staff who are supported by 25 offices around the world.
