## History and Mission

**proderm** medical focuses on the clinical research of medicinal products and medical devices. As a full-service partner, the CRO supports clients in all phases of the clinical development. Our scientific focal point is the investigation of systemic and topical preparations for the treatment of diseases affecting the „surface of the human body“. Our purpose is to provide safe access to new therapies and to support our customers in their development.  
Our approach? **Excellence.**

## Highlights

**Nature:** We are a full-service CRO with a strong focus on clinical trials in dermatology, gynecology, oral care and ophthalmology.

### Measurement / Image Analysis:

We provide a comprehensive portfolio of standard and innovative technologies in the fields of measurement and image analysis.

**Network:** We offer a network of partners which increases our flexibility and ability to adapt our services to customer needs.

**Enrollment:** It is one of our greatest strengths to satisfy the most challenging recruitment conditions.

**Experience:** We have conducted +200 clinical studies in an environment fully compliant with GCP regulations.
