History and Mission

MLM Medical Labs is a central laboratory dedicated exclusively to clinical trials. We offer full laboratory services, including a whole range of analytics: standard safety profiles, such as blood counts, coagulation, urinalysis and clinical chemistry, and analyses of biomarkers, drug compounds, metabolites and molecular diagnostic parameters. Internationally active in over 40 countries, including the U.S., China and Eastern Europe, we are located in Mönchengladbach (near Duesseldorf).

Highlights

CAP-, CLIA- and DIN EN ISO 15189:2014-accredited, and GLP-certified, our lab conducts clinical trials in full compliance with EMA, FDA and GCLP guidelines.

After forging a successful strategic alliance with Cenetron Diagnostics in Austin, TX in 2015, MLM expanded its business operations to China by entering an alliance with the renowned Teddy Clinical Research Laboratory in Shanghai in 2019.

MLM Kit Building® service supports the design, assembly and dispatch of up to 50,000 kits per year. All components are barcoded and can be tracked using mlm online®.

MLM Medical Labs GmbH
Dohrweg 63
41066 Mönchengladbach, Germany

Tel. +49 2161 4642 102

Services

Analytics

- Safety sample analysis on 365 days a year
- Broad portfolio of over 300 validated biomarker assays
- World-standard analytical methods
- Clinical chemistry, hematology, coagulation, serology and urine analysis: 1.5 Million data points per year
- Multiplex Analysis with up to 40 biomarkers
- Cell-based assays
- Complete analytical study reports

- Capacity of 500.000 samples for long term storage at -30 °C, -80 °C and over liquid nitrogen: **MLM Sample Storage System®**

Superior IT infrastructure

- Online data-access and kit tracking: **mlm online®**
- Regular and customized data transfer according to client's DTA specifications
- Validated LIMS, digital SOP system, ERP, CTMS and Document Management System

Management and Logistics

- Global study setup and project management
- In-house manufacturing of study-specific sampling kits of up to 50,000 kits per year: **MLM Kit Building®**
- Proprietary transport system: **MLM Safeguard Box®** to efficiently protect samples against thermal stress and therefore contributing to the quality of safety data
- Worldwide transport of clinical samples, sampling kits and supplies
- Receipt of samples on Saturdays, Sundays and holidays
