History and Mission

Anju Software provides an adaptive platform for clinical trials, medical affairs and a newly designed, state-of-the-art clinical content and data repository. It's an AI-based analytical solution combined with data and applications capabilities, which can integrate disparate data sources, creating a unique solution, serving the world-wide pharmaceutical, biotech and contract research Life Sciences Markets.

Highlights

Our **eClinical Suite** is the most adaptable clinical solution for all phases and complexities of clinical trials.
Anju's **Data Insights Suite** lets you see the whole picture and make better informed decisions faster.
The **Anju MAX Suite** is a comprehensive end-to-end solution that enhances the entire Medical Affairs eXperience for maximum impact.
The **Anju Platform** technology components deliver optimal application and data integration, document storage, collaboration, analytics, and insights.
