History and Mission

Started in 2011, we at **palleos healthcare** see medical innovation as key in addressing today's health challenges. Our scientific roots together with our extensive experience enable us to offer customized services for early stage and clinical stage companies, accelerating the development of medical innovations.

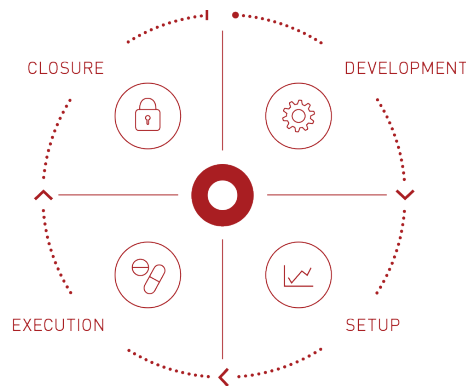

Highlights

Full Service CRO

We seamlessly guide your clinical studies from setup to completion, handling everything from protocol development to regulatory submission with precision and expertise. With comprehensive support at every stage, we ensure your research is smooth, efficient, and successful.

(Pre-) Clinical Consulting

Our consulting services cover pre-clinical and clinical product development. We offer tailored expertise and guidance, ensuring seamless progress and strategic direction for your research endeavours.
