Services

We have the patients!

- owner of the established website patientenstudien.de – with high trust and far reach.
- dedicated and highly specialized team of patient recruitment managers
- experienced PIs, receptionists and study nurses with a close and trustful relationship to their patients
- immediate reimbursement for participants for all visits according to ethical approval
- positive KPIs in terms of customers satisfaction with high impact on compliance, retention and loyalty of trial participants
- **93.5% of our patients would participate in another trial at kfgn / Pratia Germany**

We are loved by CRAs!

- dedicated working space for your CRA at all our sites
- source data identical at all sites, state of art data entry
- capacities and models for remote monitoring and ESF

We scale service and solutions according to <u>your</u> needs!

No matter if you are you planning Phase III all over Europe or if you're a laboratory next door – only in need of human samples. Feel free to ask!

No matter if you are a start-up with a DIGA looking for 300 people immediately or if your team conducts phase Ib and needs two carefully selected patients. We can help you.

No matter, if you are looking for Flying Staff for Data Entry or if you like to plan your next trial in a fully remote environment. Just give us a call.

Be ensured: We listen carefully to your needs and scale the projects accordingly. We strictly follow to what it takes for success – by keeping the high standard. When working with kfgn / Pratia Germany you can rely on our experience from almost 1,000 projects and enjoy both long term expertise and a fresh spirit.
