

COMPANY PROFILE

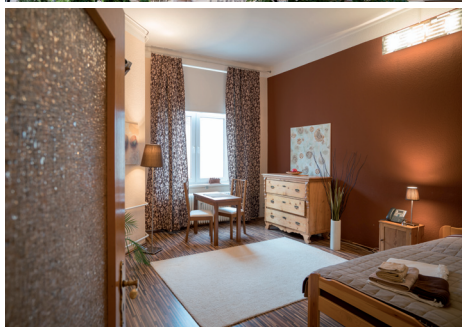

Dr. med. Bettina Bergtholdt
CEO and Entrepreneur
bettina.bergtholdt@emovis.de

History and Mission

emovis is a service provider taking care for your projects and trial subjects in various ways. On the one hand as dedicated outpatient Study Site in Berlin for clinical trials phases Ib-IV. On the other hand with Homecare Visits in clinical trials in several European countries. Until now, the study site conducted more than 250 trials with more than 7.000 patients enrolled since 2001. Our department Homecare Visits in Clinical Trials, conducted more than 100 trials since 2012.

Highlights

- 2016, emovis included Phase Ib (first-in-patients)
- 2014 Dr. Bergtholdt founded the subsidiary camovis GmbH – a **Flying Study Nurse Service** for Site support.
- 2013 emovis Study Site passed an FDA inspection successfully (without issuing a Form 483)
- 2012 Dr. Bergtholdt started the business **Homecare Visits in Clinical trials** – a service for conducting visits at the patient's home in European countries
- 2009 Dr. Bergtholdt added the **Sleep Lab** (three bed unit)
- 2001 emovis as a **Dedicated Study Site** was founded by clinical investigators

Services

The challenges that Sponsors and CROs have to face are rising. emovis is not only trying to meet expectations in terms of timelines and quality. emovis will also listen. Feel free to discuss new ideas and types of projects – such as virtual trials.

1. How to find a reliable and experienced Study Site – quick in start-up, fast in recruitment, honest in estimation?

- emovis is dedicated to clinical trials and covers more than 120 indications
- overnight stays are easily possible in the sleep lab (phase I, sleep trials)
- staff: 5 physicians, 8 study coordinators, 4 study nurses – all ICH-GCP and IATA trained
- in-house marketing, patient phone, administration – turnaround time: 5 days. Study start up possible within 2-4 weeks
- In-house patient database with more than 15,000 subjects
- Swift reply on feasibilities – and we promptly say “no”, if a project does not fit.
- Best case: 848 subjects in vaccination trial (as a single site)

2. What, if trial subjects are too weak to come to the site or if the site is too far away?

- emovis Homecare Visits can conduct visits at the home / school / work / holiday spot of the patient
- permanent staff: 8 multilingual project- and equipment manager based in Berlin
- temporarily hired / freelance staff all over Europe: nurses, trained on the specific task / visit
- Countries: D, A, CH, UK, IE, F, BE, NL, DK, SE, PO, ES, IT ... and?! Just ask!
- Best case: 1500 study visits in 20 month in a cancer trial

3. What if the PI is great and he has many trial subjects at his site, but he lacks qualified staff ...?

- Since 2014, emovis is shareholder of the camovis GmbH. camovis offers Flying Study Nurses as Site support all over Germany (www.camovis.de)
